Course Description

Unity began with a spiritual healing that was mediated through the mind by application of principles. The first healing was followed by others and eventually Silent Unity and Unity Centers emerged. The healing practices and principles developed and applied by Myrtle and Charles are the basis of this course. Students will be working with Fillmore's teachings on healing and wholeness, as well as with historical and contemporary master teachers. The principles will be presented to support students in developing a practical understanding of Unity theology as "heart-centered meta-physics."

Learning Objectives

By the end of the course learners will be able to:
